

**PennDOT offers numerous partnerships with municipalities. In addition to financial resources, there are opportunities for municipalities to turn to PennDOT personnel for various partnerships on a variety of projects.**

## MUNICIPAL GUIDE FOR CONTACTING PENNDOT

by Michael H. Fleming, ISMF LLC

PennDOT offers a wide variety of assistance to their municipal partners. These resources include Municipal Services Representatives, PennDOT County Maintenance Offices, PennDOT District Offices, Liquid Fuels Financial Consultants, and PennDOT news and information.

### PennDOT Municipal Services Representatives

Each PennDOT District has municipal services representatives (MSRs) to support municipalities. The MSRs webpage has contact names, emails, and phone numbers for the representatives for each district.

MSRs are responsible for the oversight and approval of liquid fuels expenditures. They can answer your questions and provide guidance on using the program, permissible activities, and preparation of required reports.

Some MSRs are involved with grant programs such as Multimodal, Automated Red Light Enforcement (ARLE), and Green Light Go. In addition, they keep up to date on the numerous other funding sources that can be leveraged by municipalities to complete highway and bridge projects.

MSRs also provide technical assistance on roadway and bridge maintenance, safety trouble shooting, liquid fuels project set-up, resolution of audit issues, mediation of state route maintenance concerns, funding programs, and code interpretation. They are a great first contact for a municipality for a transportation question.

### County Maintenance Offices

The link to the PennDOT County Maintenance offices can be found on each district's webpage. From the district page, go to the "Contact Information" section near the bottom of the panel on the right side and click on "All Contacts" to get to all the county contacts for a district. On that page you will find the county contact addresses and phone numbers.

The county maintenance staff is responsible for the maintenance of the state roads in the county. As a municipality, you are responsible for some features on state roads, like traffic lights, crosswalks, parking as some examples and are also affected by maintenance of the roads done by the PennDOT County Office. It is good practice to get to know staff in the county maintenance office, so you can collaborate and work proactively with them to resolve issues before they become larger problems. Contact them by phone with concerns and follow up with an email.

### Contact Information

#### PennDOT Engineering

#### District 8

2140 Herr Street

Harrisburg, PA 17103-1699

**Phone:** 717-787-6653

**Fax:** 717-787-6662

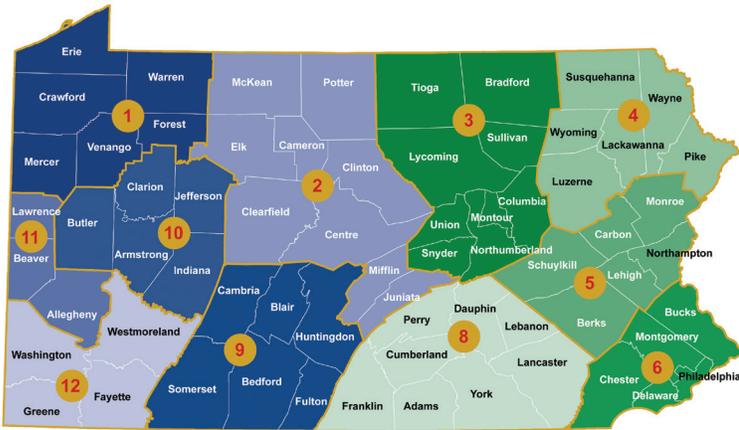

**Business Hours:** 8:00 a.m.-

4:30 p.m. Monday-Friday

### District Offices

The PennDOT Regional Office (district) webpage has the district addresses and phone

**PennDOT Districts webpage has contacts for your engineering district. You can also find press releases and subscribe to the District News.**

numbers. They also have press releases about the upcoming and active projects in the district. Subscribe to the *District News* and you will automatically receive the press releases. The webpage may also have information about construction projects, ongoing schedules and detours, maintenance and traffic bulletins, public meetings, information on specific projects, etc. It may also have general news about events and programs going on in the district.

### Liquid Fuels Financial Consultants

Financial consultants offer assistance and training to municipalities with liquid fuel accounting, preparation of the MS-965 year-end reports, and registration and navigation in the dotGrants System. That system is the online location for all your liquid fuel reporting. Financial consultants also help with the interpretation of policy and regulations regarding the expenditure and compliance on the use of liquid fuels funds.

For more information or questions, contact the financial consultant for your county or call 717-214-6161.

### PennDOT Statewide Information

The PennDOT News Page offers the most recent news releases from PennDOT's central office in Harrisburg and its 11 engineering districts. You can subscribe to receive the PennDOT Statewide News.

*The DOTcom* – a PennDOT quarterly newsletter aims to keep you informed with PennDOT's latest efforts to improve your quality of life and maintain your mobility in Pennsylvania. Subscribe and see past issues on The DOTcom webpage.
